

INSET MAP OF PRSF

ABOUT THIS MAP

VdP/EMC Jun 2009

Core Wildlife Habitat includes minimum viable habitat areas surrounding the 149 rare wildlife occurrences that were derived from field surveys between 2007 - 2009, plus records from the wetlands inventory project (2005-2007). Core habitat areas estimated from site inspection and review of 2006 1-foot color aerial photographs, courtesy of NH GRANIT.
